

# Facility Mission Statements

Your Parks, Your Future (YPYF)

10/22/19

## **Civic Park**

Civic Park Community Center will reflect the location, culture and demographics of the local community, with a focus on the adjacent downtown population. The facility will be multi-generational and will serve as a gathering place where the community can enjoy health, fitness, arts, educational and personal enrichment programming that meets the multidisciplinary needs of all members of the community.

## **Heather Farm**

Heather Farm Community Center will serve as a local and regional community facility for recreational programming and large community gatherings that is multi-generational and reflects the unique setting of Heather Farm Park. The flexible spaces of the facility will accommodate health, fitness, educational, and camps programming that meets the needs of all members of the community while also serving the broader region.

## **Clarke Swim Center at Heather Farm**

The Clarke Swim Center will be a multi-generational community aquatic facility providing instructional, recreational, and competitive programming. The facility will support family events and social activities for local and regional users.

## **Shadelands**

The Center for Community Arts (Shadelands) will be the primary arts education campus for the local community while also serving the broader region. The facility will provide flexible studio, classroom and assembly space for all generations to gather and to learn, create, perform, and be enriched through participation in the visual, performing and industrial arts programming.
